Dear Holly:

I wanted to thank you and your staff for helping Prevent Blindness Florida with our staffing needs over the past few months.

You have consistently sent us top quality people who more than meet our expectations! Brenda Mueller and the other account managers in your office are always helpful and responsive to our requests for temporary staff and your on-site employees are always eager to please and jump right in to whatever tasks are assigned. In fact, they were so great; we've hired two of them for permanent positions!

Thanks again for your help and we look forward to working with you in the future.

Regards,

Jay Tobin, CFRE
Vice President
